Aug 2025 - May 2027

Master of Business Administration

- Haas merit scholarship; President, PM Club – Organized 500+ attendee Berkeley PM summit & case book launch
- Developed a multi-agent architecture using A2A protocol to automate statistical validation of A/B test efficacy

Indian Institute of Technology Madras, India

Aug 2016 - May 2020

Bachelor of Engineering, Aerospace Engineering

- Founder & CEO of a food-tech venture, raised funds from IIT Madras incubator and acquired 1K users in 6 months

EXPERIENCE

GENENTECH, Digital & AI, San Francisco, USA | **AI Product Manager**

May 2026 - Present

AI/ML team powering patient access, commercial strategy, and drug discovery through life-sciences data products.

- Built a Neo4j knowledge graph for conversational analytics over data served by existing ETL pipelines, using Word2Vec for efficient retrieval to achieve 3.7x intent-aligned responses and reduce LLM token costs by 21%.
- Achieved >95% metadata coverage by operationalizing governed metadata and ontology standards in Cube's semantic layer via YAML & Markdown, enabling AI agents to reliably discover data and take downstream actions.
- Validated offline feature retrieval for duplicated definitions through a POC on AWS SageMaker Feature Store across 8 ML models, mitigating training-serving skew and quantifying redundant feature compute.

GUPSHUP, Bengaluru, India | **Product Manager**

2023 - 2025

Market leader in Conversational AI (Pre-IPO, \$300M ARR); Clients from 60+ countries: P&G, Netflix, Abbott, Petromin

- Developed a 0-to-1 LLM campaign tool with GPT-based synthesis and CTR-optimized reinforcement learning loop, set up robust AI evals & validations to prevent sensitive data leakage, generating \$700K+ in cross-sell revenue
- Launched an AI agent for message personalization using Gupshup's ACE LLM (100+ languages), collaborating with the ML team to achieve 15% higher CTR for 5 pilot clients and earning CEO recognition for GTM value
- Unlocked \$15M revenue by launching security features like RBAC, end-to-end encryption, flexible PII masking, and set up robust observability systems with architects to enable a scalable, ISO, GDPR, and SOC 2 compliant platform
- Leveraged insights from user research (40+ user interviews, funnel drop-offs, and cohort analysis) to revamp a developer tool's UX to support complex use cases, elevated NPS to 70, and retained \$4.5M+ in at-risk revenue
- Led GTM launch for the Customer Data Platform, driving adoption in APAC, NA, LATAM, MENA, and EU by creating tailored strategies for pricing, targeted collateral, sales enablement, and support team alignment
- Owned strategy, roadmap, and execution for three product lines, establishing quarterly KPIs and sprint goals, and led a 30-member engineering, design, and data science team, driving \$40M in revenue at a 75% gross margin
- Led development of an integration platform with 20+ connector APIs, drove alignment among 15 PM leads by streamlining communication and robust, data-backed PRDs, scaling platform to 500 clients streaming 10B+ events

NOVA BENEFITS, Bengaluru, India | **Product Manager, Associate Product Manager, Growth Associate**

2020 - 2023

Founding team member; One-stop corporate benefits SaaS platform valued at \$41M, VC-backed by SIG, Bessemer

- Secured a \$10M Series-A as the first PM, attained profitability for the insurance claims product line in 12 months, and reduced operational costs by 20% using AI-powered automation and NLP-based document processing
- Led development of APIs, tools, and dashboards to streamline multi-stakeholder claims workflow through data analysis and user journey mapping, boosting operational efficiency by 40% and reducing claim TAT by 33%
- Launched a 0-to-1 gamified AI Fitness Bot using RASA NLU, achieving a 30x increase in WAU (0.5% to 15%) across 50 enterprise clients by running rapid experiments and A/B tests to maximize user engagement
- Identified a key strategic opportunity through competitive analysis, leading to the launch of Nova's benefits marketplace with seamless self-serve UX, expanding the product ecosystem and generating \$500K in new revenue
